The undersigned has for sale a small quantity of Cotton Seed of last year's crop, which he can recommend to the public as being superior to any ever raised in this State.

This Cotton grows in clusters of from 8 to 1 bolls, five locks to each boll, and produces forty pounds of lint from one hundred pounds of seed cotton.

It is a long staple, of a beautiful white fleecy appearance, and is almost equal in texture to the celebrated Sea Island cotton.

The seed were originally procured by the undersigned in Mississippi, where they sell for 25cts. apiece.

A sample of the Pearce Cotton and Seed can be seen at the store of G. T. Stronach & Co., of Raleigh. For particulars apply to them, or to the undersigned, at Hilliardston.

Correspondents will please write on one side of the paper.

LOCAL BRIEFS.—

Serenading parties are now in vogue.

The Catholic and Episcopal churches have been dressed for Easter.

If you want to "laugh and grow fat' go and see Cal Wagner to night.

Fishing excursions are the order of the day, and quite the thing just now.

Mr. J. P. Prairie has for sale 150,000 brick, three-fourths of which are hard. See notice.

It is said that this county has paid no school tax for the past two years. How is this?

The hop at the City Hotel Thursday evening was largely attended and highly enjoyed.

A large number of dwelling houses are in course of erection in Eastern and Western Wards.

The Mayor's Court, up to 6 p. m. yesterday, was without a case. The police report the city quiet.

The Board of City Commissioners should now order a vigorous enforcement of the "dog law."

Hon. John Manning, of Pittsburg, is in attendance upon the present session of the Superior Court of this county.

The holes in the sidewalk, near Carmer's drug store and the Howe Sewing Machine office, are still unattended to.

It is said that the school tax in this county, if the election is carried in the affirmative, will be 8½ cents on the $100 worth of property.

Elders P. D. Gold and L. J. Bodenheimer will preach in Metropolitan Hall on Sunday, 13th April. Preaching will commence at 11 o'clock, A. M.

A number of our State exchanges will find an advertisement in another column to be copied, concerning the meeting of the North Carolina Medical Society.

Mr. Sol. J. Allen, of Dayton, this county, has purchased through Mr. W. C. Morgan, General Agent, a Blandy 20 H. P. portable saw mill, and corn mill, and design running a gin by the same power.

The fancy in gentlemen's hosiery this season is brown Balbriggans. The socks come in stripes of fawn and brown, fawn and purple, maroon and other dark hues. Undershirts and draws are also shown in fawn colors or brown.

Col. Buford, President of the Richmond & Danville Railroad, was in the city yesterday. We suppose his business was in connection with the recent injunction sued out by the State authorities against the proposed alteration of the gauge of the North Carolina Railroad above Greensboro.

The principal point of attraction on Saturday, is in front of the auction store of E. W. Thomason, Eq., whose happy style of crying always draw a crowd. Thomas is a young man of fine business qualifications, and we are glad to see he is receiving a liberal share of patronage.

The last night of Cal Wagner.

"THE OLD TRAMWAY."—It seems that a few errors crept into our recent article in relation to the Captol, wherein mention was made of the old road from that building to the old rock quarry. A gentleman sends us the following, which we publish with great pleasure:

MESSRS. EDITORS:—You are generally very correct as to your historical facts, but one or two errors have crept into your paper of late, which I beg leave to correct.

The Raleigh experimental railroad was not a wooden "tramway," but was a heavy strap iron road, and was built not by Mr. William White but by Capt. Daniel H. Bingham, an engineer of some distinction, assisted by two of the pupils in his military school, Dr. R. B. Haywood and Col. Wm. Abbott, of Miss. The heaviest embankment was just where Newbern and Blount streets intersect, and the heaviest cut (about five feet.) inside the Capitol Square, and was filled up with the debris of the stone cutter's sheds. The road turned out of Newbern street at the Hutchings House, into Morgan street, and ran on a ridge in a line with Morgan street to Camp Russell, and thence in a south easterly direction between the camp stables and Mrs. Lambrights to the Quarry. This road was the third road built in the United States, and the first south of the Potomac, and was suggested by a man travelling with a model of a road which he exhibited in the old Concert Hall, and road our citizens around the rode at ten cents ahead. The idea was incorporated into the Raleigh Road, and a car was ordered from John R. Harrison and put on the road. This car paid for the whole road at twenty-five cents a head, and when the Capitol was completed and the objects of the road accomplished, three hundred per cent had been declared in dividends. H.

"HOW THE BOY ARISES."—The following from the Danbury (Conn.) *News* is now going the rounds of the press, and as it is a "good thing," we reproduce it in our local column:

"Calling a boy up in the morning can be classed under the head of "pastimes," especially if the boy is fond of exercise the day before. And it is a little singular that the next hardest thing to getting a boy out of his bed is getting him into it. There is hardly a mother who is a success at raising a boy. All mothers know this, so do their boys. And yet the mother seems to go at it in the right way. She opens the stair door and insinuatingly observes: "Johnny." There is no response. "Johnny." Still no response. Then there is a short, sharp "John," followed a moment later by a prolonged and emphatic "John Henry." A grunt from the upper region signifies that an impression has been made, and the mother is encouraged to add, "You'd better be getting down here to your breakfast, young man, before I come up there an' give you something you'll feel." This so startles the young man that he immediately goes to sleep again. And the operation has to be repeated several times. A father knows nothing about this trouble. He merely opens his mouth as a soda bottle ejects its cork, and the "John Henry" that cleaves the air of that stairway goes into that like electricity, and pierces the deepest recesses of his very nature. And he pops out of that bed and into his clothes, down the stairs, with a promptness that is commendable. It is rarely a boy allows himself to disregard the parental summons. About once a year is believed to be as often as is consistent with the rules of health. He saves his father a good many steps by his thoughtfulness."

CORRT HOUSE IMPROVEMENTS.—We are glad to see that this matter is exciting general interest. We have for months directed public attention to the inadequacy of the present building and commented freely upon its unsightliness in an architecural point of view. We do not hesitate to make the assertion that nine tenths of the Courts favor either a remodeling of the building, or the incline of a new one. The present building is confessedly inadequate, having no accommodations for Judge, Jury, county officials or spectators. In this connection it will be proper to state that Messrs. K. P. Battle, T. H. Briggs and Thos. Coats, the Committee appointed by the Board of County Commissioners to examine into the matter, desire that members of the bar should send them suggestions as to how the proposed improvements should be made. At another time we will have something more to say about this matter.

"INFORMATION TO TRAVELERS GOING NORTH."—Under this caption we find the following advertisement in a copy of the Raleigh *Register*, of January 1833:

"During the continuance of the bad roads, the mail will leave Raleigh daily for Petersburg, at the usual hour, in a two horse cart, and is of itself a sufficient load, therefore passengers will not be carted. But for their accommodation a coach will leave Raleigh on Sunday, Tuesday and Thursday mornings, and go to Petersburg *via* Louisburg, Warrenton, Lawrenceville and Belfield. The tri-weekly line of coaches will leave Raleigh as usual, on Monday, Wednesday and Friday mornings, and go to Petersburg in two days, *via* Nash Court House, Enfield, Halifax and Belfield. Both of these lines intersect the Railroad cars at Belfield.

The daily coach line will be resumed as soon as the roads will permit.

AVERY, TOMPKINS & SALTMARSH."

REMOVED TO GREENSBORO.—We notice that our young friend, W. I. Young, Esq., of Henderson, has received and accepted the position of operator for the Southern Atlantic Telegraph Company at Greensboro. We wish him much pleasure in his new home.

We suppose that with the expiration of Lent the hop season will commence

LOUISBURG ITEMS.—Our Louisburg correspondent sends us the following items from that locality:

The wind on last Saturday played havoc with trees and fences in the section.

Dr. Crenshaw had a fine saddle and harness horse gored to death by a heifer a few days ago.

Epizooty has returned to the county, and is raging among the mules.

The farmers are busily engaged in planting corn, and hauling cotton to Franklinton. Fertilizers in unusual large quntities are being used in preparation for the next cotton crop.

Rev. P. J. Carraway, the Methodist Minister here is most acceptable to his congregation. Rev. Wm. Royall fills the Baptist pulpit twice a month. Mr. Royall stands deservedly high as a preacher. The Episcopal church is without a Rector though its members are tollerably numerous.

The new hotel kept by A. L Green, is growing in favor.

The general health of the town and county at present is very good.

The wife of T. C. Horton, former County Court Clerk, a day or two ago was badly bitten by a sharp dog on her husband's premises while endeavoring to rescue her little son from the dog's attacks. She was bitten in both arms, and one finger was nearly bitten off. The little boy escaped almost unhurt. The dog was instantly put to a deserved death.

CAL WAGNER'S MINSTRELS.—Last evening this troupe gave a capital entertainment at Tucker Hall. Second to old Joe Sweeney's, this is the best minstrel performance we ever saw South; and to be candid, we will admit, that we are actuated more by a spirit of home pride in putting old Joe's troupe, (none of whom are now living) at the head of the list. The spectator constantly finds himself disposed to enquire why such excellent artists and vocalists should deem it necessary to avail themselves of burnt cork.

In the excellent performance given last evening, there were many conspicuous displays of real artistic merit, and we do not feel called upon to dwell with special emphasis upon either the drolleries of the Hall, the admirable humor of Cal Wagner, or the dancing of Canfield and Booker. All are excellent, if not quite unequalled in their respective lines. A specially commendable feature of the Cal Wagner troupe is the fine music, both vocal and instrumental, with which it profusely entertained the audience.

A second and last performance will be given to-night, and we have only to say that those wanting to laugh heartily should go to see the Cal Wagner troupe. Ladies can attend with full propriety, as the entertainment is strictly chaste. There is to be an entire change of programme.

TICKET TO WIN.—The following communication speaks for itself. We endorse the ticket of "Many Voters," and will be glad to see it go through, as it undoubtedly will on the 5th of May:

EDITOR NEWS:—Please announce through your columns the following ticket for Commissioners from Middle Ward:

Hon. Kemp P. Battle,
Dr. Geo. W. Blacknall,
William C. Stronach.

They are the right men for the place, not only representing the interest of all, but as non partizans will be acceptable to all and every one.

"MANY VOTERS."

MEETING OF THE BOARD OF EDUCATION.—Yesterday a meeting of the State Board of Education was held in the Executive office. Governor Tod R. Caldwell, Attorney General Hargrove, Secretary of State Howerton, Auditor Riley and Superintendent Public Instruction McIver, were present.

The meeting was called to consider an application of the authorities of the city of Wilmington, for instructions from the Board for authority to levy taxes for the establishment and support of graded city schools. The Board were of the opinion that the Board of Alderman of that city had no power under the amended charter to levy taxes for such a purpose.

The Board had several other matters under consideration, which will be made public in a few days.

(2) A pure stimulant, Century Whiskey!

RADICAL NOMINATIONS FOR COMMISSIONERS.—The Radicals nominated last night for Commissioners in the Eastern Ward, Stewart Ellison, colored, J. P. Prairie, Esq. and W. W. White, Esq.

The Western Ward convention, after a hard fight, delivered themselves of the following ticket:

John C. Gorman, Albert Johnson and James H. Jones, colored. Thus it will be seen that Norfleet Dunston, one of the most estimable colored men in the city, has been thrown overboard.

FURNITURE FOR SALE.—Mr. Kemp P. Battle, Administrator, will, on the third of May, sell a lot of hosehold and kitchen furniture at the residence of the late Judge R. M. Saunders, on Hillsboro street.

THE GAS STRIKE NOT YET OVER.

Notwithstanding the assurances of yesterday's New York papers, that the gas troubles were about over in that city, our telegrams to-day give a different account of the situation. A Grand Mass meeting by the gas strikers was advertised to take place last night, and arrangements, are said to be complete for a general strike during next week.

ARREST OF TWEED ORDERED.

For refusing to testify before the Erie Investigating Committee the Legislature of New York, now in session at Albany, yesterday ordered the arrest of Tweed and Gould.

Tweed resigned several weeks ago as State Senator, and now disobeys the process served upon him by the Committee of Investigation, requiring him to give testimony before them, touching the frauds in Erie Railroad transactions.

CIVIL SERVICE RULES TO BE MAINTAINED.

In accepting Medill's resignation as a member of the Civil Service Commission, the President assures that gentleman that the rules of the civil service will be maintained!

When it is known that the President violates these rules at pleasure, whenever he wishes to appoint a personal friend or brother-in-law to office, the absurdity of his assurance on the subject becomes apparent.

ENFORCING THE USURY LAWS

The recent speculations in the money market in Wall Street, have greatly unsettled financial and commercial business in New York, and disordered every species of trade.

The evils of these speculations are so manifest that the Grand Juries have been appealed to on the subject, and an investigation into the monied conspiracies has been called for.

The public interests demand the indictment of the parties who have united together to defeat the usury laws, and the New York people think the Grand Juries will be able to collect overwhelming evidence in Wall Street to convict the usurious brokers.

RESISTING THE KELLOGG GOVERNMENT.

Acting under the advice of Gov. McEnery, the legal Governor of Louisiana, the tax-payers of that State are holding meetings in the several parishes, for the purpose of uniting into a regular organization, to resist the payment of taxes levied by the Pinchback—Kellogg conspiracy.

This method was recommended by the public press and leading citizens at New Orleans, and if carried out successfully, will cause the speedy downfall of the usurping faction.

Without the means to carry on the Government—cut off from the support and aid of a large majority of the tax-payers of the State, Kellogg's Administration will have a gloomy prospect before it, and must eventually sink out of public sight. It has neither the respect nor confidence of the decent people of Louisiana. It is a mockery of Republican Government—supported by Federal bayonets, and resting for its foundation upon the favor and countenance of the President of the United States.

UNCONSTITUTIONALITY OF RE-TROACTIVE HOMESTEAD LAWS.

A few days ago, we commented editorially at some length on a recent decision of the Supreme Court of the United States, to the effect that retroactive Homestead laws were unconstitutional.

The question was taken up to the Supreme Court of the United States, from the Supreme Court of Georgia, by a writ of error, and decided by the latter tribunal at its present term.

We saw the digest of the case going the rounds of the papers, and our comments were based on the following extracts clipped from the last Charlotte *Democrat*:

IMPORTANT DECISIONS.—The Supreme Court of the United States last week decided an important Homestead case from Georgia. The Court holds, that Homestead exemptions cannot apply to debts contracted before the enactment of Homestead laws—the late enactment of Congress to the contrary notwithstanding. Of course the same ruling will apply to North Carolina. The case is stated in the proceedings of the United States Court at Washington as follows:

Gunn *vs.* Barry—Error to the Supreme Court of Georgia. In this case the Court hold that an act of the Legislature of Georgia of 1868, increasing the amount of Homestead exemption, was not applicable to pre-existing debts and judgments, and reversed a judgment below refusing the writ of mandamus to compel the Sheriff to levy on certain property of Barry, that officer having declined to make the levy on the ground that the property was exempt under the act cited. Mr. Justice Swayne delivered the opinion.

The Court also decided that a State cannot tax debts or credits, as follows:

Walker *vs.* Whitehead—Error to the Supreme Court of Georgia. This was an action on a promissory note, and was dismissed because it did not appear that certain taxes (chargeable on all debts) had not been paid on the debt. This Court reverses the judgment, holding that the act imposing taxes on debts by the State is unconstitutional, as impairing the obligation of contracts. Mr. Justice Swayne delivered the opinion.

Referring to the above case of Gunn against Barry, the Salisbury *Watchman* says:

So it really seems from the Homestead decision of the highest tribunal in the land, that the prospect for annulling and practically setting aside the claims of ninety-nine out of every hundred of those who have taken the benefit of the Homestead law, is quite good, we are sorry to say. If this decision is carried into effect it will produce no little confusion, litigation and distress. Yet we are not surprised at the decision of the Supreme Court. We have never doubted the unconstitutionally of a retrospective Homestead Act, though we have always been an advocate for homestead laws. We took no stand against the Homestead act at the time it was passed and discussed, because we saw the great necessity of some sort of relief for the people, even though it were only temporary. The Homestead measure was not, however, in accordance with our ideas of what was necessary.

In the case of Gunn *vs.* Barry, carried up from the Supreme Court of the State of Georgia on a writ of error, the Supreme Court of the United States has just decided, that a *State* homestead law cannot apply to *pre-existing debts.* In 1868, the State of Georgia enacted a homestead law, similar in every respect to that enacted by the State of North Carolina in the same year. The Supreme Court of Georgia rendered a decision—in effect the same as that rendered by the Supreme Court of North Carolina in the case of Hill *vs.* Kessler—that it applied to old debts, as well as new. This decision has just been *reversed* by the Supreme Court of the United States in the case above mentioned. This decision of the Supreme Court of the United States will speedily settle the question in all the States, North Carolina as well as Georgia. Men who owe old debts must recognize the fact that there is no longer *any security* for their homesteads, except in the General Bankrupt Act.

The decision above referred to in no no wise affects the homestead under the Bankrupt law, as recently amended, but leaves, it unimpaired. The decision simply is, that *no State* can enact a retrospective homestead law; but the power of Congress to enact such a law, as a part of a General Bankrupt law, cannot, and has not, been questioned. Indeed, the power of Congress to enact such a law was long ago settled in the celebrated cases of Sturgis *vs.* Crowningshield, and Oxden *vs.* Sanders.

Persons owing old debts, which they are unable to pay, have but little time to lose. Another case may be brought before our Supreme Court at the June term, and the Court will almost certainly recognize the paramount authority of the Supreme Court of the United States, as it did on a former occasion, and change its decisions ccordingly. Homestead men had better take warning, and act before it is too late.

We have not seen a full report of the decision in the case of Gunn against Barry, but will publish it as soon as a copy can be procured.

The question involved is one of the highest moment to our people, for, if it should be held by the highest tribunal in the land, that the North Carolina Homestead law is unconstitutional as applied to pre-existing debts, then there will be much litigation in our Courts, involving great confusion, trouble and expense.

We are in favor of Homestead laws and think the exemptions should be large and in fee simple. There can be no harm to creditors in this, because when credit is given, it is done with a full knowledge of the privileges and rights of the debtors.

It, however, in the opinion of the Court of last resort—the Supreme Court of the United States—the present law of North Carolina is unconstitutional as applied to debts contracted previously to the adoption of the State Constitution, then it behooves those who have trusted to the security of their Homesteads to set their houses in order, to meet the crisis which will sooner or later come upon them.

In view of the efforts which are being made to overthrow our Homestead law, the Salisbury *Watchman* gives the following advice:

SAVE YOUR HOMESTEAD.—An effort is being made to overthrow the State Homestead, as applied to debts contracted prior to July, 1868, by carrying a case up to the Supreme Court of the United States. There are strong reasons for believing that this effort will prove successful, and if it does, all who owe debts contracted before the above mentioned date and are unable to pay the same, will lose their Homesteads, *unless* they go into Bankruptcy and get their discharges before the decision is made. By *prompt* action they can easily do this, and thus free themselves from embarrassment, and secure their Homesteads to themselves and their wives and children. Let all Homestead men, who owe such debts remember this, *and act before it is too late.*

A discharge in Bankruptcy releases the debtor from *judgments* as well as other debts; it also releases him from security debts on all classes of bonds—such as administrator's, guardian's, sheriffs, constables, and other official bonds, *old or new.* Then let all who are involved take advantage of it while they may, for they are in great danger of losing their homesteads if they do not. Let no one hesitate because men may say it is dishonorable, *for it is not* The present financial distress did not result from the faults of the debtor class, but from a great civil war, for which no one in particular is responsible. The Bankrupt law is a great and beneficent measure of relief for the woes of a sad national calamity, and no sufferer should hesitate to take advantage of it. It is his duty to do so for the love he owes to his wife and children.

Under the amendment of June the 8th, 1872, bankrupts are allowed, in *addition* to the exemptions under the 14th section of the Bankrupt law, the exemptions of our State law, viz: a homestead of the value of $1,000, and personal property of the value of $500, amounting in all to more than two thousand dollars.

In all cases where the homestead has been laid off and and allotted by assessors, or appraisers under the provisions of the State law, and "fraud, complicity, or other irregularity" in the matter is not shown, the same will be respected and enforced by the Bankrupt Courts.

THE CONNECTICUT VICTORY.

We condense the following comments on the late Democratic victory in Connecticut from a few of our exchanges, North and South.

[From the New York Herald.

The Connecticut election is the first utterance of the people's voice since the people, not in the cities only nor in towns, but in the country also, have come to a full knowledge of the Credit Mobilier bribery and falsehoods of the foremost leaders of the Republican party (the two Vice Presidents, the three Senators, and the four or five chairmen of the principal committees of the House of Representatives;) the refusal of the Republican party in the Forty-second Congress to punish their crimes; the salary grab; President Grant's signing $100,000 into his private purse; his cynical abandonment of all pretence of civil service reform after that pretence had served its purpose in promoting his re-election; and his subversion of the lawfully elected Government of Louisiana—upon that full knowledge the people of Connecticut have spoken, and their language is plain and unmistakable.

Connecticut has elected the Democrat, Charles R. Ingersoll, Governor by 4,000 majority. Compare that majority with the almost uninterrupted Republican majorities since '56, and its great significance will appear. It is pointed by the fact that General Hawley, who had no part nor lot in the disgraceful conduct of his party, but denounced it, runs largely ahead of his party ticket.

"The morning light is breaking;
The darkness disappears."

[From the New York Tribune.

Causes largely local and personal entered into the election of the State officers, but the defeat of the Republican ticket would never have been accomplished but for the fact that the recent investigation in Congress have shown a degree of corruption in the party that could not be approved or winked at by honest men. Thousands of Republicans remained at home or voted a mixed ticket, and the consequence is a comparative Republican defeat. The Republican candidate for Governor was commended as a "Christain statesman," after the manner of Governor Buckingham, who whitewashed the New York custom-house and Senator Pomeroy. The people have rebuked that style of statesmanship.

[From the Baltimore Gazette.

The result of the Connecticut election will send a thrill of joy through the hearts of the Democratic and Conservative masses of the country. Ingersoll, the Democratic candidate for Governor, has a majority of 3,400 over all the candidates; the Republicans have only one majority in the Senate, and the Democrats a large majority in the House, the Congressional delegation remaining the same as in last Congress. The magnificent result was not brought about by mere local dissensions in the Republican ranks, but was occasioned by other and more significant causes. It is a solemn verdict of the people against the faithlessness and corruption of the Radical party. No other rational explanation can be given of the astounding result of the contest. The implication of leading Republicans, including two Vice-Presidents and a number of Senators and Representatives, in the Credit Mobilier swindle, aroused popular indignation, and completely overwhelmed the organzsation that attempted to condone the glaring offenses of its prominent members. The coolness with which President Grant signed the bill putting a hundred thousand dollars into his pocket, the refusal of the Administration to protect the people of Louisiana in their rights as freemen, and the general inattention paid by the Executive to the high duties of the position to which he was elected by the votes of his country-men, all made a deep impression upon the voters of Connecticut, and impelled thousands of them to cast their ballots in opposition to the party which they had previously acted. "It is the eternal law that where guilt is, sorrow shall answer it," and parties equally with individuals, are not exempt from the certain consequences of their crimes. Radicalism is only reaping what it sowed, and the result in Connecticut clearly shows that the people intend to punish at the polls the flagrant offenses of that party which has proven faithless to the trust reposed in it by the confiding masses. A good day's work was done in Connecticut on Monday last, and too much honor cannot be awarded to those who fought the good fight and won a glorious victory.

[From the Charlotte Observer.

All the elections which have taken place within the past few days have resulted in favor of the democrats.

Ingersoll, a democrat, has been elected Governor of Connecticut. Heavy opposition gains over the Republican vote of last spring are reported from various portions of the State. This change is attributable to the effect of the revelations of corruptions in the Republican party.

In Cincinnati the Democrats have elected their Mayor; and Cleaveland and Columbus, Ohio, have followed the good example of the "Queen of the West.

These are encouraging signs, and the day may yet come when the Democratic-Consesvative element of the North joined with the whites of the South will get control of the government.

[From the Norfolk Journal.

The Democrats have good cause to congratulate themselves upon the result of the election in Connecticut. One hundred and fifty nine towns show that the Opposition gains over the Republican vote of last spring 7,585 votes, including 1,855 temperance votes. The election of Ingersoll, Democrat, for Governor, is assured by a majority of 4,000. In the Presidential election Grant's majority was 4,700.

Mr. Bergh has placed in all the stables throughout New York city cards bearing the following inscription: "I promise to protect dumb animals, and may the Lord in His mercy protect mé."

Your attention is called to the "Opinions of the Press," and the reports of disinterested Newspaper Correrpondents from various sections throughout Eastern and Middle North Carolina, and Southeastern Virginia, where it has been extensively used,—stating the high repute in which this Fertilizers is held by the Planters, as matter of public concern and benefit. Enquire for Pampnlet containing these Testimonials and Opinions of the Press and other Useful Matter of General Information and Interest to the Farmer.

It has been so extensively used and universally praised that it requires no commendation at our hands. The Cotton Planters using it affirm that it matures the Cotton earlier by Several Weeks, and nearly doubles the yield. Many say it is equaled by no manipulated Guano on the market; and prefer it for many reasons to the Peruvian Guano.

There will be only a limited amount of this Fertilizer manufactured especially for our supply and trade, and we desire that the Cotton Planters in the section of country tributary to this market, should FIRST BE SUPPLIED, with what they may need. After supplying the needs of the Planters, in the region named, the remainder, if any over, will go to fill the orders of the trade at large, throughout the wide district of territory assigned to us.

Some of the ingredients for this Fertilizer, the "Southern Fertilizing Company" had to import from Germany at a great cost, and this stock had to be laid in and prepared beforehand. The Company, therefore, required us to inform them at the beginning of the season, the probable amount our trade would require, which we did accordingly and we feel confident from the numerous inquiries and large orders received that the demand will far exceed our stock, or ability to supply, and therefore we bespeak our Planter friends to send in their orders at once, (that we may book them, and thereby give them the preference,)—and then, they can order the Fertilizer to be shipped to them whenever they need it.

The Fertilizer will cost the Planter no more to order it early in the season. ☞ Time Price $65, Free of Interest—Cash Price $60—at our Warehouse in Norfolk. It is put up in new, strong bags of 200 lbs to the bag. "FIRST COME, FIRST SERVED," is the old adage. If our friends neglect to avail themselves of the opportunity presented, and hereby duly notified, they cannot blame us if their orders later in the season have to be turned off.

SATURDAY........................APRIL 12, 1873.

NORTH CAROLINA.

Excursions are now the order of the day.

Fires in the woods in various sections are reported.

Mad dogs are uncomfortably numerous in Winston.

Rockingham, Richmond county, has the measels bad.

New Virgin turpentine is coming into the Wilmington market.

Fifteen marriage licenses were issued in Richmond county last week.

The meningitis is said to be raging in the upper part of Richmond county.

The Northeastern N. C. R. R. will soon be pushed through to Winston.

The turpentine trees near Lilesville, Anson county, suffered severely by fire a few days ago.

Fires in the woods in Steele Creek township, Mecklenburg county, have destroyed a large number of fences.

Martin Westmoreland, a highly esteemed citizen of Forsythe county, died at his residence in Winston on the 5th inst.

A meeting of the old New Hanover County Agricultural Society is to be held at Lillington, on Saturday, when a re-organization is to take place.

One Godwin, a member of the Edgecombe county Board of Commissioners is to be impeached for "high crimes and misdemeanors in office."

A colored boy by the name of Chas. Sides was killed the other day in a brick-yard near Winston. He was struck on the head by the sweep of the machine, and his skull crushed.

An employee at the saw mill of the Cape Fear Building Association, at Abbottsburg, on Monday last, was very seriously gashed by coming in contact with the saw.

Wilmington mourns because the United States Government will not establish a fish hatching house at that place. Her grief is aggravated because Weldon and Newbern are spoken of as a location.

The saw and grist mill and three cotton gins, the property of Mr. Pat Houston, in the southern edge of Mecklenburg county, near the Union line, were destroyed by fire on Friday of last week. The fire is thought to have been the work of an incendiary.

At a recent meeting of the stockholders of the Wilmington Mutual Fire Insurance Company, the following gentlemen were elected Directors for the ensuing year:

William A. French, William Larkins, H. Von Glahn, R. J. Jones, Alfred Martin, R. S. Radcliffe, Sol. Bear, E. F. Story, John McRae, James A. Bradley, F. W. Kerchner, J. K. Brown. W. A. French was elected President, and J. K. Brown, Vice-President, and T. M. Gardner, Secretary and Treasurer.

It is now believed, says the Wilmington *Journal*, by many physicians that the terrible disease, cerebro-spinal meningitis, which appears at this season in various parts of the country, and of which a few supposed cases have occurred in this city, is directly traceable to bad drainage. It is so sudden and swift in its action that the cause of it remained hidden for some time, but it is asserted by those who have made a study of the disease, that it scarcely ever occurs save where bad sewerage exists.

Organization of the Halifax and Scotland Neck Railroad Company.

An adjourned meeting of the Stockholders and others interested in the proposed Halifax and Scotland Neck Railroad, was held in the Court House at Halifax, on Monday, the 7th inst., at 12 M.

On motion of J. C. Randolph, Esq., Hon. R. H. Smith was called to preside, and Dr. H. E. T. Manning requested to act as Secretary. The Chairman, in a few appropriate words, said the object of the meeting was the election of Directors, and such other business as might be deemed advisable.

Col. Walter Clark offered the following:

Resolved, That a Committee of three be appointed by the Chairman of this meeting, to report the number of shares of the capital stock subscribed for, and the number represented in person or by proxy. The Chairman appointed the following gentlemen on said Committee: Messrs. Walter Clark, W. H. Smith and W. H. Kitchen.

During the absence of the Committee, Messrs. Conigland, Day and Hill were called on, respectively, to address the meeting, each of whom pledged their undivided support in the enterprise, but declined discussing the matter at length. Mr. J. M. Grizzard being called on, responded in a few happy remarks, in which he promised his best efforts to render the road an eminent success.

Mr. J. M. Mullen was called, and endorsed in well-measured terms the remarks of the other gentlemen.

Mr. J. J. Goodwyn, on being brought to the stand, said that to Mr. Eppes, as the introducer of the Bill amending the charter, first belonged the credit of addressing the meeting.

Mr. Henry Eppes, in answer to calls, came forward and expressed the opinion that the Road would redown to the benefit of the whole county and said, that the little opposition, if any, he hoped would be harmonized and that all would unite in furthering the project.

Col. Walter Clark, the Chairman of the Committee to report on the number of shares represented, came forward and called the roll in order to find how many shares were epresented in person any by proxy. The roll being called it was found that 670 shares of capital stock had been subscribed: 587 of which were represented in person, 58 by proxy and 25 unrepresented.

Thereupon the Committee, through its Chairman, reported that a large majority of the stock was represented in person or by proxy. On motion, the report was accepted.

Mr. Thos. N. Hill introduced the following: *Resolved*—That the Stockholders of the Scotland Neck Railroad Company do accept the Charter granted them by the "Act to incorporate the H. & S. N. R. R. Company," ratified by the General Assembly of North Carolina, on the 6th of February, 1872, and the provisions of the "Act to amend an act to incorporate the H. & S. N. R. R. Company "ratified 27th February. Carried.

Mr. J. M. Grizzard offered the following: *Resolved*—1. That a Board of eight Directors shall be chosen by the Stockholders, to hold their terms of office for one year or until their successors are elected.

2. That the officers of this Company shall consist of a President, a Superintendent and a Secretary and Treasurer, who shall be elected by the Board of Directors, and that the Treasurer be required to give bond and security in a sum to be fixed by the Board of Directors. Adopted.

Mr. W. H. Smith moved that the meeting proceed to the election of officers, which on being carried, the following names were presented as a Board of Directors:

R. H. Smith, Noah Biggs, Ed. Conigland, Walter Clark, John C. Randolph, J. R. Tillery, John T. Gregory, J. J. Goodwyn.

On motion of Capt. J. M. Grizzard, the election was proceeded with *viva voce* all voting in the affirmative save Capt. W. H. Kitchen, who voted in the negative.

Capt. W. H. Day offered the following:

Resolved, That the President and Board of Directors be requested and empowered to make all necessary negotiations and arrangements with the Presidents of the Seaboard & Roanoke Railroad, W. & W. Railroad and Petersburg Railroads.

Resolved, That the President and Directors, be empowered and requested to appoint an agent or take any other steps they may deem advisable to secure additional subscriptions to the capital stock of the company, especially in the cities of Norfolk, Petersburg and Baltimore, and they endeavor by all legitimate means to secure the ratification by the people of the subscription of one hundred thousand dollars by Halifax county, which may be voted by the Board of Commissioners, or any subscription they may vote.

Mr. Edward Conigland, after asking that those who had not subscribed would come forward and do so, offered the following:

Resolved—That a call for five per cent. of the stock be made to be paid in 30 days—and that they employ an engineer, and cause a survey of the contemplated route at the earliest practicable moment.

The main business of the meeting being over, Mr. R. P. Spiers offered the following:

Resolved—That the stockholders of this place, tender their thanks to Mr. Conigland, for the able manner in which he advocated the claims of Halifax, as one of the termini of the H. & S. N. Railroad, in Scotland Neck on Saturday last.

This complimentary resolution brought Mr. Conigland to his feet, who said that to Col. Clark, more than himself, was due the credit of first mooting the question of having a Railroad between Halifax and Scotland Neck. Mr. C. spoke confidently of the early completion of the proposed road, and promised that none should outdo him in working for it. He said he was in favor of making accommodating terms, if possible, with the W. & W. Railroad, so that the tariff of freight from Halifax to Weldon would be in keeping with that of the H. & S. N. Railroad, but in case of failure to make such arrangements, he counseled the extension of the road to Weldon in order to be independent of any undue exactions. His remarks throughout were well-timed and appropriate.

Mr. J. J. Goodwyn, in answer to a renewal of the previous call, came on the stand and said that he favored the road, as he would all other public improvements in the county, believing it to be to the advantage of our whole county. Promised his support in behalf of the Halifax and Scotland Neck Railroad, and said he would advocate a road from Weldon to Ringwood, in which he should ask the people of Scotland Neck and Halifax to assist him, and he felt assured that they would be as ready to lend aid in that matter as he was to help them now.

Sheriff Reid, who was next called, said that he, too, was a warm advocate of the projected enterprise, and would do all in his power to make it what all wanted it should be—a success.

Mr. John Bryant, being called and found absent, Capt. Gizzard said, that he felt authorized in pledging Mr. Bryant's active support.

Mr. Alex. H. Smith offered the following:

Resolved. That the proceedings of this meeting be published in the *Roanoke News*, Enfield *Times*, in the Raleigh, Petersburg and Norfolk papers.

Moved by Col. Clark, that the annual meeting of the Stockholders be held in Halifax, on the second Thursday in April of each year, subject to the call of the Directors at any time, and that this meeting, when it adjourns, it do adjourn to the second Thursday in April, 1874.

No further business coming before the meeting, Capt. W. H. Day moved an adjournment, which was carried.

R. H. SMITH, Sr., Chairman,
H. E. T. MANNING, Secretary.

The feasibility of raising rabbits for food has for some time been under discussion in England. They increase very rapidly, are easily fed, and are a favorite with the London poorer classes. Laboring men, who will not touch Texan beef or Australian mutton, find in native rabbits a succulence and relish that never satiates. According to an Austrian paper another profit may enter, in time, into the calculation. The longer hairs of the rabbit afford an excellent material for weaving into woollen goods, and the shorter hairs are readily purchased by the felt makers at a fair price.

A colored girl in Columbia, Fluvanna county, Va., one day last week fell out of a second story window and broke her neck. The girl, when she fell, had a white infant, which she was nursing, in her arms, and strange to say the child was not injured.

GUANO! GUANO!! GUANO!!!

BUY THE BEST

SOLUBLE SEA ISLAND GUANO!

State Fair Premium at Wilmington for the Largest Amount of Cotton to an Acre.

GOLDSBORO, Wayne County, N. C., November 23rd, 1872.

JOHN H. POWELL, Esq.:
DEAR SIR—The Soluble Sea Island Guano purchased of you this season was used by the side of three others, and has given me more satisfaction than any of the others. The Soluble Sea Island Guano was the one used upon the acre of land upon which my son raised the cotton upon which he took his State premium for the greatest amount of cotton to an acre; and I am informed by the Chairman of the Committee that had he entered for the largest amount of cotton to the acre, premiums open to all ages, he would have also taken that premium, beating all 150 lbs. I am better pleased with it than any other Guano I have ever used on cotton, and I shall use it in preference to others next season for my cotton crop.
T. A. GRANGER.

ALSO EIGHT PREMIUMS AT WAYNE COUNTY FAIR.

The Amount of Seed Cotton made on an Acre of Upland by Mr. Granger was Three Thousand Six Hundred and Thirty-three Pounds.

EDGECOMBE COUNTY, N. C., December 12th, 1872.

Messrs. R. W. L. RAISIN & Co., Baltimore:
I bought of Messrs. Branch, Herbert & Co., last Spring, one ton of your Soluble Sea Island Guano for myself and three tons for other parties, and I find them all well pleased with it, and say it is the best Guano, and paid them better than any they ever used. The ton I used myself was put in cotton by the side of two other guanos, and I am willing to say that I should buy the Soluble Sea Island Guano in preference to any that I have used since the war. Very respectfully,
J. R. GREEN.

SELMA, N. C., November 12th, 1872.

W. H. AVERA, Esq.:
DEAR SIR—The ten bags Soluble Sea Island Guano more than met my expectations I consider it equal to Peruvian for cotton. It paid me over 100 per cent. It more than doubled the crop. My neighbors who bought it are highly pleased, and will use it in preference to any other when it can be had. Hope you will keep a supply the coming Spring.
Truly yours, R. HARE.

LOUISBURG, N. C., December 4th, 1872.

E. W. FULLER, Esq.:
DEAR SIR—I tested your Guano this year, and the result is, I will use it on my whole cotton crop next year.
Yours, &c.,
ELLIS MALONE.

HENDERSON, Granville County, N. C., November 29th 1872.

To S. J. PARHAM:
The Soluble Sea Island Guano purchased of you was used on tobacco and cotton by me by the side of Peruvian Guano, Stonewall & * * * *. I like it much better than either, and I observed a marked difference in favor of the Sea Island. Shall use in the future.
S. S. ROYSTER.

HENDERSON, Granville county.

HENRY BURRELL, Esq., has stated to us that he made a test this present year's tobacco crop, using two other higher-priced guanos, but is convinced that the Soluble Sea Island Guano is the cheapest guano he has ever purchased, and shall use it again.

YANCEYVILLE, Caswell County, N. C. December 6th, 1872.

Captain W. P. ROBINSON,
DEAR SIR—In reply to your inquiry as to how I liked the Sea Island Guano I got of you, I wish to say that I applied it, 200 pounds to the acre, alongside of Peruvian, Pacific Guano and Gilham's Tobacco Fertilizer in equal quantities; it stands the drouth better than either of the above fertilizers. It matured better on the hill and cured better and more yellow than either of the other fertilizers used. I think it is a splendid fertilizer and I expect to use it next season.
Yours, respectfully,
MARCELLUS MIMMS.

WILSON, N. C., January 11th, 1873.

Messrs. HARRISS & BLACKWELL:
GENTS—I used this season, on my cotton crops about 15 tons of your Soluble Sea Island Guano, testing it by the side of Guanape and Vegitator, and up to the time of the heavy washing rains last of June, I was equally pleased with its action as of the Guanape and better pleased than with the Vegitator.

SATURDAY..........................APRIL 12, 1873.

THE WRECK.

Down, down, into the deep!
Into the ocean's jaws,
Hissing, with foamy lip,
To swallow the freighted ship
Like a lamb in eagle's claws.
Borne off with one fell sweep!
Down, down, into the deep!

Swift as the lightning's glare,
In the black midnight air,
Came the great throes of pain,
Torn with the cruel rock;
Rent with the fearful shock;
Creaking in every chain;
Cordage rope snapped in twain;
Down, with agonized leap!
Down the unfathomed deep!

Where are the loved we knew?
The gentle, the brave, the true?
Lips we were wont to kiss?
Tones we shall ever miss?
Hearts that were yesterday ours?
Dead—like the frosted flowers.
'Neath the remorseless wave,
Swiftly is cleft their grave.

At midnight was heard a cry—
"The bridegroom draweth nigh!
Go ye, your king to meet;
Forth, in the night and sleet;
Forth, without prayer or stay!
Past is the time to pray."

Oh, let sweet mercy draw
The veil in trembling awe;
Give throbbing spirits rest,
And whisper, "They are blest."
Else would our sorrowing tears
Melt all life in tears.

Horrors of a Wreck Under Water—The story of a Submarine Correspondent.

A newspaper correspondent who went down to the reck of the Atlantic in a diver's costume says the hull lies well down on the port side, and is broken in several places from contact with the reef. Fish were swimming around, eargerly devouring particles of food floating about. He found the forward hatch open, and saw that the cargo there had broken bulk and lay in confused heaps, with bodies of men and women jammed among the cases and crates, bruised and torn. Fish were swimming in and out, feasting upon the dead bodies. Limbs are strewn around, having been broken from the bodies by the continual action of the waters, which, when agitated, drive against ugly pieces of the broken hull that here project.

The correspondent then went to the companionway of the steerage cabins, and found a hundred or more bodies lying in an immense heap, with arms dislocated, eyes staring wildly, faces grinning, and moving backward and forward with the under-current. Some were dressed, but many were half nude. Children were clinging to mothers, stout men were clasping their wifes, seeming to have met death with calm resignation. The scene was horrible beyond desscription.

The correspondent then went to the companionway of the steerage, where the men passengers were by themselves. Bodies of strong men, old and young, were hustled together on the stairway, with distended nostrils, gaping mouth, staring, glassy eyes giving some conception of terror which seized them as they vainly struggled to gain the deck.

From another part of the vessel a view was obtained of the sleeping apartment, where, piled up in heaps on the port side, were numbers of bodies of men with bed-clothing strewn among them. From abrasion with broken staunchions and jugged, splintered woodwork the flesh had been torn from the faces of many, while others were bruised and scattered about their heads, which are red with gaping wounds, contrasting horribly with the pale, livid features of others.

It is seldom that a man becomes as notorious or as wealthy by questionable means as Mr. Padwick, of London. Mr. Padwick had been for many years the prince of money-lenders. To him resorted the needy heirs of the nobility of England, and any respectively rich commoner with few brains and many friends could always obtain a discount. He aided in the ruin of the Marquis of Hastings, whose early death created such a sensation some years ago. Little titbits of from three to four hundred thousand dollars have continued to fall in, some by suits at law and some simply by the death of rich fathers. Hamilton House and the estate of Sir A. Stewart have passed into his hands, and he seems to be in a fair way of founding a Padwick family among the wealthy commoners of England. Many of the old crusaders or the Norman knights who came over with the Conqueror may not have been men of the best character; but the modern civilized vices which thrive are, to judge by the career of Mr. Padwick, worse than those of old.

CENTURY WHISKEY

Persons in delicate health, often find it difficult to obtain a Pure Stimulant when prescribed by their Physicians, and it is for Druggists and other first-class trade that the

CENTURY WHISKEY

is particularly designed. It is differently prepared from

ANY WHISKEY IN MARKET,

and is driving many old brands out of market, because the "principle upon which is made is superior."

The almost universal testimony of those who have used the

CENTURY WHISKIES

is, that there is an entire absence of Headaches, and other disagreeable after-effects so often experienced in the use of other brands. This is a direct consequence of the

Purity of the Century Whiskies,

and the impurity of many other brands. They are ABSOLUTELY PURE; four prominent chemists certify to this fact, viz:

Prof. SILLIMAN, State Chemist of Connecticut.

Prof. C. U. SHEPARD, Jr., State Chemist of South Carolina.

Prof. W. C. TILDEN, Washington, D. C.

Prof. JOHN DARBY, New York.

All of whom agree in pronouncing it "without fault," and "free from any deleterious substance whatever."

NORTH CAROLINA ALMANAC, 1873

Calculated by Dr. Craven, and compiled by L. Branson, printed on fine-sized and calendered paper, neatly and elegantly.

It contains many useful recipes, much valuable statistical matter, and many

AGRICULTURAL

items. It is emphatically an AGRICULTURAL ALMANAC. It is different from every other Almanac; has been published a number of years and sold successfully.—It is, we think, certainly as good if not better than any other.

A few still on hand—order soon.
